Damage Prevention Training

TOPICS COVERED

1

Nevada Excavation Law
(NRS 455 & NAC 455)

2

5 Steps to
Safe Excavation

3

Common Ground Alliance
Best Practices

4

Submitting an 811
Dig Ticket

Cost

The NRCGA provides this class for **FREE** in an effort to promote damage prevention to underground utilities.

Why Take This Training?

Anyone excavating around utilities needs to know the risks involved when underground facilities are damaged.

Who Should Take This Class

Excavators, landscapers, and all who share the responsibility of preventing damage to Nevada's underground utilities.

Where Are Classes Offered?

Classes are offered in Southern Nevada (Las Vegas area) and Northern Nevada (Reno and Carson City areas).

English & Spanish

Training in Southern Nevada is provided in English and Spanish.

Training Schedule

In Southern Nevada, the NRCGA schedules at least one English and one Spanish class per month. English and Spanish classes are generally scheduled within a day of each other. Classes are offered in Northern Nevada by request. Visit www.nrcga.org for more information.

About Our Instructors

Instructors are NRCGA members from utility and excavation companies with years of experience in damage and loss prevention, among many other topics.
